

The Wedding Planner

Jason Nizich
Kelly Wiczorek

The Wedding Planner

- Allows brides-to-be to automate the guest list and all guest information such as:
 - Guest name, address, phone for sending invitations, and their invite #'s
 - Guest RSVP information
 - ◆ If the RSVP was send back, a check box can be marked to indicate it was received

Guest Information cont.

- Guest dinner selection choice
 - If the invitation and RSVP card require that the guest select their dinner choice, the user (bride) can select each guest's dinner choice from a drop-down box containing the following choices: Chicken, Beef, Vegetarian, and Other
