

The ability to learn is a gift  
The capacity to learn is a skill  
The willingness to learn is a choice

- *Rebec of Ginaz*

# Re: question from last class - Mech prop data for annealed plain carbon steels

Also from last class:

Densities of some materials:

Al alloys	2.63-2.82 gm/cm <sup>3</sup>
steels	6.92-9.13
Ti alloys	4.43-4.70
Mg alloys	1.77-1.78
Cu alloys	7.47-8.94
glasses	2.4-2.7
HDPE	0.96
PMMA	1.22
epoxies	1.25
