

# Physics 121.

## Tuesday, March 4, 2008.

---

# Physics 121.

## Tuesday, March 4, 2008.

---

- Course Information
- Quiz
- Topics to be discussed today:
  - Conservation of linear momentum (a brief review)
  - One- and two-dimensional collisions (elastic and inelastic)

# Physics 121.

## Tuesday, March 4, 2008.

---

- Homework set # 5 is now available on the WEB and will be due next week on Saturday morning, March 8, at 8.30 am.
- To download the collision videos:
  - OSX: use control-click while pointing to the movie links to download the linked file.
  - Windows: use right-click while pointing to the movie links to download the linked file.
- The most effective way to work on the assignment is to tackle 1 - 2 problems a day.
- Note: clicking on the “Email instructor” button sends an email to the instructor and the TAs.
