

Chapter 4

Network Layer

A note on the use of these ppt slides:

We're making these slides freely available to all (faculty, students, readers). They're in PowerPoint form so you can add, modify, and delete slides (including this one) and slide content to suit your needs. They obviously represent a *lot* of work on our part. In return for use, we only ask the following:

- If you use these slides (e.g., in a class) in substantially unaltered form, that you mention their source (after all, we'd like people to use our book!)
- If you post any slides in substantially unaltered form on a www site, that you note that they are adapted from (or perhaps identical to) our slides, and note our copyright of this material.

Thanks and enjoy! JFK/KWR

Chpt 4 - Section 4A

Network layer

- transport segment from sending to receiving host
- on sending side the net layer encapsulates TCP segments into datagrams
- on rcving side, it delivers segments to transport layer
- network layer protocols in every host, router
- router examines header fields in all IP datagrams passing through it
