

# 15-441 Computer Networking

## Lecture 10: Inter-Domain Routing

### BGP (Border Gateway Protocol)

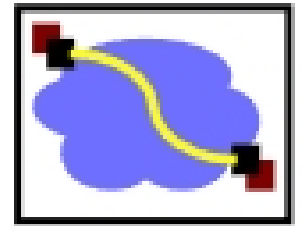

These slides proudly ripped from Srinu Seshan and Dave Anderson, 15-441 F'06

# Outline

- Internet Structure/Routing Hierarchy
- External BGP (E-BGP)
- Internal BGP (I-BGP)

# A Logical View of the Internet?

- After looking at RIP/OSPF descriptions
  - End-hosts connected to routers
  - Routers exchange messages to determine connectivity
- **NOT TRUE!**
