

# End of Computer Vision Story

Mubarak Shah

# Course Objective

- To prepare students for graduate research in Computer Vision.

# How to read a Computer Vision research paper ?

- *You have to read the paper several times to understand it .*
- *Try first to get a general idea of the paper .*
- *Try to relate the method to other methods you know.*
- *In the first reading skip the related work*
- *Do not use dictionary to just look up the meaning of technical terms*
- *Try to understand each concept in isolation*
