

Intro to Programming II

ArrayLists

Chris Brooks

Department of Computer Science
University of San Francisco

8-2: The ArrayList class

- Last time, we learned about how to use arrays in Java.
- Java also provides an ArrayList class that can help manage arrays.
- ArrayList is a *generic* container.
 - That means that we can use the same container to store different kinds of elements.

8-3: The ArrayList class

- An example:
