

Suggested study plan/ how I study:

1. Read over this study guide 1-2 times
2. Write out notecards on everything—I recommend splitting them up for a term.
 - a. (Write them out, don't copy and paste the study guide, writing them will help you retain more information)
3. With the definition side up, go through the notecards until you know all terms
4. Then, with term side up go through the notecards until you know all definitions
5. Delete definitions from the study guide (email me if you want a copy ready for this step)
6. Print the study guide and fill it out as much as you can without looking at other sources
7. Repeat step 6 until you feel confident about every topic on the study guide
8. Let me know if you have any questions, comments or concerns
