

## Contents

8/25.....	5
Basic Definitions.....	5
Properties of Matter.....	5
Significant Figure Rules.....	5
8/27.....	5
Significant Figures Rules Still.....	5
Dimensional Analysis.....	6
Classifications of Matter.....	6
Metric Conversions:.....	7
Accuracy vs Precision:.....	7
9/1.....	7
Atomic Theory of Matter:.....	7
Isotopes, Atomic Numbers, and Mass Numbers.....	8
Periodic Table.....	8
Metals, Nonmetals, Metalloids.....	8
Molecules and Molecular Compounds.....	9
Atomic Weight.....	10
Ions and Ionic Compounds.....	10
9/3.....	10
Naming Inorganics.....	10
Ionic Compounds:.....	10
Polyatomic Compounds:.....	10
Acids.....	11
Binary Molecular Compounds (Covalent).....	12
9/8.....	12
Chemical Equations:.....	12
Types of Reactions.....	13
Patterns of Reactivity.....	13
Atomic, Molecular, and Formula Weights.....	13
Mole.....	13
9/10.....	13

## Chem 1210

Empirical Formulas.....	13
Combustion Analysis.....	14
Intro to Stoichiometry.....	14
Limiting Reagent.....	14
9/15.....	15
Percent Yield.....	15
Properties of an Aqueous Solution.....	15
Driving Forces.....	16
9/17.....	16
Driving Force (still).....	16
Concentration of Solutions.....	17
9/22.....	17
Exam 1.....	17
9/24.....	17
REDOX Reactions.....	17
Displacement/Activity Series.....	18
9/29.....	18
Thermodynamics (Chapter 5).....	18
10/1.....	19
Enthalpy.....	19
Calorimetry.....	19
Assumptions We Make.....	19
10/6.....	20
Bomb Calorimeter.....	20
$\Delta H$ .....	20
10/8.....	20
Chapter 6: Quantum.....	20
Wave Behavior of Matter.....	21
Quantum Numbers.....	21
10/13.....	22
Periodic Trends.....	22
10/20.....	23
Group Characteristics.....	23

# Chem 1210

Group 1A: Alkali Metals.....	23
Group 2A: Alkaline Earth Metals.....	23
10/22 Exam 3.....	23
10/27.....	23
Lewis Structures.....	23
Steps to Draw:.....	23
Lattice Energy.....	24
Electronegativity.....	24
10/29.....	24
Bonds.....	24
Ionic Compounds.....	24
Polar Covalent Bonds.....	25
Nonpolar Covalent Bonds.....	25
Formal Charge.....	25
Resonance Structures.....	25
Octet rule.....	25
Exceptions:.....	26
Strengths of Covalent Bonds.....	26
11/3.....	26
Chapter 9: VESPER.....	26
Polarity of Molecules.....	28
11/5.....	28
Covalent Bonding and Orbital Overlap.....	28
Hybrid Orbitals.....	29
Multiple Bonds.....	29
11/10.....	29
Molecular Orbital Theory.....	29
Second Period Diatomic Models.....	29
11/12.....	29
Characteristics of Gases.....	29
Pressure.....	30
Gas Laws.....	30
11/17.....	31
