

Step 1

- Load the class data set from
<<http://academic.udayton.edu/gregelvers/psy216/SPSS/216dataS11.sav>>
- Are the number of hours worked and the number of hours studied inversely related?
- Step 1:
 $H_0: \rho \geq 0$
 $H_1: \rho < 0$
 $\alpha = .05$

Step 3

- Graphs | Legacy Dialogs | Scatter / Dot
- Simple Scatter
- Define

Step 3

- Move one variable (Hours worked) to the Y axis
- Move one variable (Hours studying) to the X axis
- OK
