

# CMSC424: Database Design

Instructor: Amol Deshpande  
amol@cs.umd.edu

# Today

- Next class, homework etc..
- E/R Model
- Relational Model

# Data Modeling

- Goals:
  - Conceptual representation of the data
  - “Reality” meets “bits and bytes”
  - Must make sense, and be usable by other people
  
- End result should capture all the domain knowledge
