

Project Deliverables

CIS 4328 - Senior Project 2

And

CEN Engineering of Software 2

Second Semester Deliverables (anticipated)

- Deliverable #6 - User Interface Design and Revisited Analysis Modeling
- Deliverable #7 - Layered Architectural Design
- Deliverable #8 - Detailed Design - Iteration Planning and Use Case Realizations - Context Diagrams only.
- Deliverable #9 - Subsystem Design - Interaction Diagrams (both) and VOPC diagrams.
- Deliverable #10 - Class Design and Implementation #1; First Functional Demonstration
- Deliverable #11 - Final Deliverable: Complete Implementation Model and Demonstration including client testing.

Deliverable 6

due: 1/23/2008 Start of class

- Two Key Components
- 1. Revisiting Analysis Model
 - Use Case Specifications - Revisited
 - Interaction Diagrams - Revisited
- 2. User Interface - Expanded and Revisited
