

Project Deliverables

Version 3: 10/25/2005

Note: This document contains the deliverables for a two semester course.

This document includes Deliverables 1 to 3 but will be extended as the courses progress. Stay tuned 😊

Overview of Guidance

- I shall try to upgrade / refine guidance for each deliverable as we progress.
- Please view this file often as it will change.
- Suggestions for clarity and/or consistency are always welcome.

Format of Deliverables

- All Deliverables will be via CD.
- Outside: Surface of CD is to clearly indicate your course number and the team number, as CEN 6016 - Team 1. Also include the project title.
- Inside: Each deliverable will be in a separate folder on the same CD, so when I access the CD, all I should see are individual folders with labels such as Deliverable n, as in Deliverable 4.
