

# Introduction to Wireless Sensor Networks

**Directed Diffusion**

**28 March 2005**

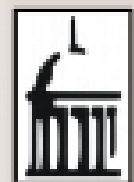

# Directed Diffusion : A Scalable and Robust Paradigm for Sensor Networks

**C. Intanogonwawat**

**R. Govindan**

**D. Estrin**

# Introduction and terminology .....

- **Availing cheap nodes for sensing, communication and computation**
- **Deploying them in a region of interest to form a network and sensing environment phenomena ( *events* )**
- **Events are transmitted ( *directed* ) from the sensing nodes( *source* ) to a destination ( *sink* ) for processing.**
