Engineering Management

Presented May 8, 1982
Sophus Thompson Conference Room
Southern Methodist University
Dallas, Texas 75275

Fulfilling Requirements for
OREM 4390 and the
Baccalaureate Degree

Dr. Richard S. Barr
Assistant Professor

CONTENTS

	<u>page</u>
I. <u>Background and Overview</u>	
A. Given	1
B. Problem	1
C. Approach to Solving the Problem	1
D. Persons and Policies Affected	1
E. Data Availability	2
II. <u>Model Descriptions</u>	
A. Traffic Study Model	2
B. Erlang's Loss Formula	4
III. <u>Solution Phase</u>	
A. Solution Requirements for the Model	5
B. Obtaining the Data	5
C. Software Description	5
IV. <u>Analysis</u>	
A. Results of WATSTAT	7
B. Results of Erlang's Loss Formula	7
V. <u>Conclusions</u>	
A. Summary	9
B. Self-critique	9
C. Suggestions for Further Study	9
