

Mutability. Applications. Environments.

EEL 5937 Multi Agent Systems

Lecture 3, Jan 14th, 2003

Lotzi Bölöni

Mutability

Why mutability?

- **Some applications:**
 - Mobile agents, while traversing heterogeneous platforms might need to adapt
 - Remotely building up monitoring agents
- **Future:**
 - Continuous updating of long-lived agents
 - Self-repair, self-debug
 - Genetic algorithms for agent design
