

# Theory Construction and Evaluation

---

1. Quiz # 1
2. Theory Evaluation

# What is Theory?

---

- Theory is a set on interconnected statements or propositions that explain how two or more events or factors are related to one another

# The parts of Theory

---

- Concepts are building blocks of theory
- A concept is an idea expressed as a symbol or in words
- $S=d/t$ ; height ;urbanization; poverty
- Concepts have two parts: A *symbol* (word or term) and a *definition*
