

Review 1

Andreas Klappenecker

Summary

- Propositional Logic, Chapter 1
- Predicate Logic, Chapter 1
- Proofs, Chapter 1
- Sets, Chapter 2
- Functions, Chapter 2
- Sequences and Sums, Chapter 2
- Asymptotic Notations, Chapter 3
- Time Complexity of Algorithms, Chapter 3

Strategy for Exam Preparation

- Start studying now!
- Make sure you know your definitions!
- Do odd numbered exercises
(Solutions are in the Appendix)
- Review your quizzes
- Review your homework
