- ❑ Project Requirements, End-Goal
- ❑ Writing Style
- ❑ Organization
- ❑ List of Acronyms
- ❑ References
- ❑ HTML Style Guidelines
- ❑ Submission

Projects

- ❑ If you are doing a survey, make sure your report produces a good summary of key current issues and recent developments.
- ❑ Topics that are 5+ years old should be mentioned only briefly with references to books for further information.
- ❑ Hands-on projects should talk about the concepts/theory used in the project and include the details of the design and use of the software. The software should be well documented in the report and code so that others can use it or improve upon it.
