

CSE 3302

Lecture 23: Equality and identity
13 April 2010

Nate Nystrom
UTA

Today

- A smörgåsbord:
 - Equality and identity
 - Real numbers
 - Dynamic typing

Equality and identity

- What does it mean for two variables to be equal?
- equality vs. identity
 - **identical** = names refer to the same object
 - **equal** = names refer to objects with the same value
