File System Implementation

April 10, 2008 - Lecture 21

Instructor: Trent Jaeger

- Last class:
 - File System Implementation Basics
- Today:
 - File System Implementation Optimizations

- Now we know how to retrieve the blocks of a file once we know:
 - The FAT entry for DOS
 - The i-node of the file in UNIX
- But how do we find these in the first place?
 - The directory where this file resides should contain this information
