

NERVES OF LOWER LIMB

LUMBAR PLEXUS (T12-L4)

- *iliohypogastric
- *ilioinguinal
- *genitofemoral
- *lateral femoral cutaneous
- femoral (L234)
- obturator (L234)

SACRAL PLEXUS (L4-S4)

- superior gluteal
- inferior gluteal
- *posterior lateral femoral cutaneous
- sciatic (L45S123)
 - tibial division (L45S123)
 - medial plantar
 - lateral plantar
 - common fibular division (L45S12)
 - superficial fibular
 - deep fibular

*know only name and that the nerve is part of lumbar or sacral plexus
