Unit 2 Lecture 3

Extracellular materials and Tissues

What are extracellular materials?

- 1.
- 2.
- 3.

Body fluids

Types?

Functions?

Cellular secretions

Types?

Functions?

Extracellular matrix

Types?

Number?

Composition?

What are tissues?

What qualities characterize epithelial tissue?

- 1.
- 2.
- 3.
- 4.
- 5.
- 6.

Covering and lining epithelial tissue

Functions?

- 1.
- 2.

3.

4.

5.

6.

Classifications?

1.

2.

3.

4.

5.

6.

7.

Glandular epithelial tissue

Functions?

1.

2.

3.

Classifications?

1.

2.

Unicellular exocrine glands-

Multicellular exocrine glands-

Classified by duct structure?

1.

2.

Classified by structure of secreting portion?

1.

2.

Classified by how material is secreted?

1.

2.

3.

Connective tissue

Functions?

- 1.
- 2.
- 3.
- 4.
- 5.

Structure?

- 1.
- 2.

Types of cells?

- 1.
- 2.
- 3.

Structure of extracellular matrix?

- 1.
- 2.

Types of Fibers?

- 1.
- 2.
- 3.

What is elastic?
