

# Lecture 15: Multics for the Masses

There once was an artist named Titian  
Who worked like a future Multician.

With models ramshackle,  
He'd just change their ACL,  
And give them all access permission.

# Midterm

- Most people did well
- I don't grade on a curve (but the histogram is provided to give you a sense of how you did)
- Don't misinterpret the 😊, 😐, or cross-country skier as an indication of your likely final grade:
  - Everyone can still get an A in the course
  - Anyone can still fail the course
