# Introduction to Matlab

**CS 1110/1111 – Introduction to Programming**  
Fall 2012

# Learning Another Language

---

- Forget programming for a bit...
- How many of you know more than one spoken/written language?
- What is an advantage to knowing more than one spoken language?

# All You Need Is...

---

- Consider the concept of “love”
- Every language can express love since it’s universal
- But how many different ways can you love someone?
