

DESIGN II, MID-SEMESTER DESIGN REVIEW

The purpose of the Design II, mid-semester presentation is to inform the audience of the progress made on design refinements from Design I, progress in formulating a comprehensive test plan for the finished product, and progress on packaging of the final product.

Reviewer: _____

<i>Technical Gradings (entire Team)</i>	Numeric Score
3. Problem lucidly stated with a clear visualization of the solution and an emphasis on the changes/refinements from Design 1; technical specifications listed and explained within problem context	(1) (2) (3) (4) (5)
Comment:	
4. Evidence of effective teaming in test plan formulation, design refinement, and packaging	(1) (2) (3) (4) (5)
Comment:	
5. The presentation discusses project concerns in the following areas: Sustainability and Manufacturability	(1) (2) (3) (4) (5)
Comment:	
6. Test plan presented for testing of the final product with respect to	(1) (2) (3) (4) (5)

DESIGN II, MID-SEMESTER DESIGN REVIEW

product technical specifications and solution of the stated problem	
Comment:	
7. Sufficient progress made in executing the design refinements/changes from Design I as supported by visual evidence and test data	(1) (2) (3) (4) (5)
Comment:	
8. Sufficient progress in packaging of final design as supported by printed circuit board design data, housings for subsystems, etc.	(1) (2) (3) (4) (5)
