 - **Future IW strategies**
 - **Surveillance Tools**
 - **The Victims of Information Warfare**
- **Military Forensics**
- **Relevant Papers**

What is Information Warfare?

- Information warfare is the use and management of information in pursuit of a competitive advantage over an opponent. Information warfare may involve **collection** of tactical information, **assurance** that one's own information is valid, spreading of propaganda or disinformation to demoralize the enemy and the public, undermining the quality of opposing force information and denial of information collection opportunities to opposing forces.
