

Network II

CS 184

Network Programming Architecture

Department of Computer Science
George Washington University

Additional Resources

- An Engineering Approach to Computer Networking by S. Keshav.
 - Chapter 16.
- Web Protocols and Practice, by Krishnamurthy and Rexford.
 - Chapter 4 on web server architecture.
 - Chapter 8 on HTTP/TCP interaction (last Thursday lecture).
- A Design Framework for Highly Concurrent Systems by M. Welsh, S. Gribble, E. Brewer, and D. Culler.

Today's Program

- Network protocol programming architectures
- Server architectures
 - Discussion of Design Framework paper
 - Class design of web server
