 - Polling vs. interrupt-driven I/O

Announcements

- We are going to have a quiz at the end of the class on Sept. 18, 2003
 - Which is a week from today
 - It will be a closed book and closed notes quiz
 - It will cover
 - System calls and how to use them
 - Lecture notes up to next Tuesday (Sept. 16)
 - Related materials in the book

Announcements – cont.

- Next week's recitation session (Sep. 17) will be optional
 - I will use that mainly to answer questions related to the first programming assignment
 - By today we should have covered everything you need to know in order to implement the assignment
 - You are not required to attend as I will not cover new materials
 - I will be in LOV 301 as we normally meet for recitation
