

CS347

Lecture 5

April 23, 2001

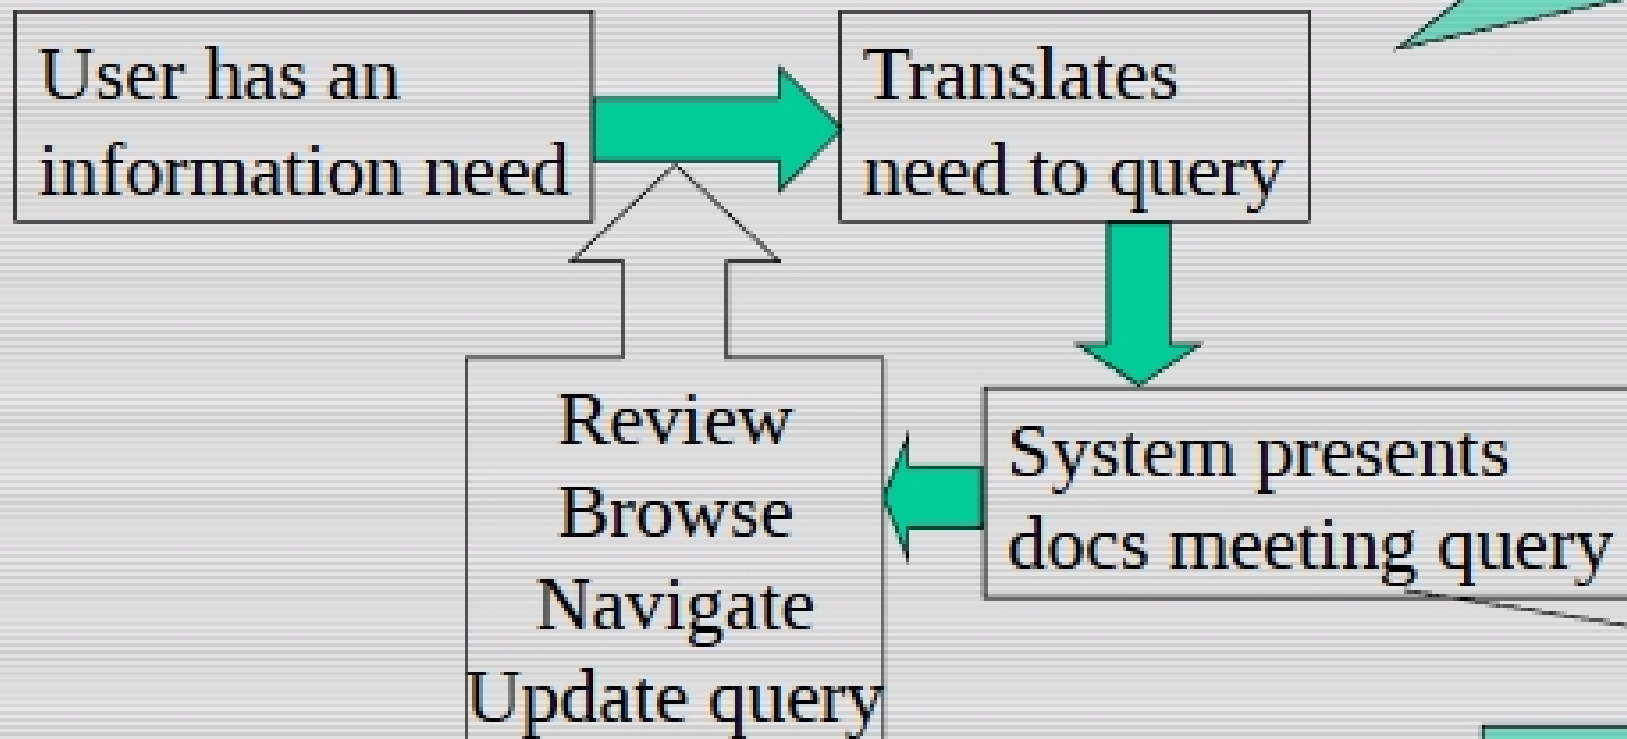

©Prabhakar Raghavan

Today's topics

- Generalized query operators
 - Evidence accumulation and structured queries
- Basics of Bayesian networks
 - Bayesian nets for Text Retrieval
- Structured+unstructured queries
 - Adding database-like queries

A step back

Translation depends on IR system's syntax + user's sophistication

Key: system's model of query-doc proximity
