

# *Intro to Programming II*

## *Files*

Chris Brooks

Department of Computer Science  
University of San Francisco

## 23-2: Working with files

---

- In C, you work with files by accessing a file pointer.
- This is declared like this:

## 23-3: Opening files for reading

---

- `fopen()` opens a file and returns a file pointer.
- It takes two arguments:
  - The file name
  - A string indicating whether we're opening for reading or writing.
