

Quiz 2 Material

Endomembrane System; ER (Protein Import); ER (Protein Folding); Intracellular Vesicle Transport; Golgi; Endocytosis & Lysosomes; Exocytosis

Intracellular Vesicle Transport

How Do Vesicles Get to Their Destinations?

- cytoskeleton provides tracks & motors to move vesicles
 - tracks: MTs, actin
 - motors: kinesin, dynein, myosin
 - control: **Rab effectors** link vesicles/organelles to motors
