

Temporal Planning and Resource Allocation

Stefanie Chiou, Rob
Kochman, and Gary Look

Running Plans in the Real World

- Need to account for time and resources when creating plans
- Papers featured:
 - "Executing Reactive, Model-Based Programs through Graph-Based Temporal Planning" by Phil Kim, Brian C. Williams, and Mark Abramson (IJCAI '01)
 - "Managing Multiple Tasks in Complex, Dynamic Environments" by Michael Freed (AAAI '98).

Paper

- Executing Reactive, Model-based Programs through Graph-based Temporal Planning by Phil Kim, Brian Williams, and Mark Abramson
