Problem Situation

- Life is busy!
 - Single Parent Family
 - Two-career Family
 - One-career Family
- Time is a severely constrained resource
- Stiff competition for our time

Problem Statement: Design an integrated human habitat to reduce the amount of time required to sustain the family and shift the family focus from maintenance tasks to achieving desired goals and objectives

Customer Requirements

- **Make Life Easy**
 - Information management
 - Financial planning and management
 - Calendar planning and management
 - Inter-household communications
 - Improve ease of accomplishing routine tasks
 - Meals-menu planning/food inventory
 - Laundry
 - Routine Cleaning-vacuum, dust, clean bathrooms
 - Routine Maintenance-touch up paint, minor repairs
- **Facilitate healthy living**
 - Nutrition
 - Exercise
- **Streamline routine processes in order for families to reallocate time to more important activities**
