About these notes

These release notes contain information about this release of SAP BusinessObjects Xcelsius 2008 Service Pack 3 only.

Read the entire document before installing your Business Objects software. After the release of the software, any late breaking issues will be added to the *SAP BusinessObjects Release Notes* available online at:

<http://help.sap.com/content/bobj/overview/index.htm>

Note:

To be sure you most up-to-date information, consult the online release notes.

About Release Numbering

Xcelsius 2008 is the initial release of this product, and may be referred to unofficially as Xcelsius 2008 RTM.

Xcelsius 2008 SP1 is the first service pack (SP) release and contains a collection of updates, fixes, enhancements and additional features. Service packs are considered major releases, and all affected documentation is updated.

Xcelsius 2008 Fix Pack 1.1 is the first fix pack for SP1 and contains a collection of patches or bug fixes, but does not contain any enhancements or additional features. Fix packs are considered minor releases, and documentation updates are limited to *Release Notes* and *Fixed Issues*.

The fix pack numbering is structured as follows: [Service Pack Number].[Fix Pack Number]. For example, if there were a third fix pack for a fourth service pack, it would be "Fix Pack 4.3". Any future Service Packs and Fix Packs will follow the above outlined numbering system. Fix packs should only be applied to the service pack they pertain to.

Note:

Users can verify which release of Xcelsius 2008 they have installed from the **Help** menu, **Help > About Xcesius**. The dialog box displays the "Xcelsius Version" number and the "Build Number". Previous releases correspond to the following numbers:
