

## Study Questions

### Lecture 12 Trade Balance

#### Part 1: Multiple Choice

Select the **best** answer of those given.

1. Which of the following **would** be included as contributing **positively** to the U.S. balance of merchandise trade?
  - a. Purchase by a U.S. airline of an airplane made by the European firm, Airbus.
  - b. Sale of a U.S. Treasury bill to a Japanese bank.
  - c. Sale by a U.S. airline, to an Italian student, of a ticket from Rome to New York.
  - d. Purchase by the Russian government of wheat from a U.S. grain firm.
  - e. A capital export in the form of construction of a foreign factory by a U.S. firm.
  
2. The United States in 2011 (the year for which international transactions were reported in the text) had a surplus in its
  - a. Balance on merchandise (goods) trade.
  - b. Balance on goods and services.
  - c. Balance on current account.
  - d. Balance on financial account.
  - e. None of the above.
  
3. If all international transactions were included and measured accurately, then the statistical discrepancy would be
  - a. Zero.
  - b. Short-term capital flows only.
  - c. Positive only if the central bank intervened to support the currency.
  - d. Negative if the country were running a trade deficit.
  - e. \$742 million.

4. Which of the following would **not** be included as contributing **negatively** to the U.S. balance of trade on goods and services?
  - a. Purchase of stock in an Egyptian corporation by a retired school teacher in Flint, Michigan.
  - b. Purchase of a case of French wine by a member of the Arizona Highway Patrol.
  - c. Sale of an insurance policy by the British Firm, Lloyds of London, to the city council of Lubbock, Texas.
  - d. Sale of 1.4 tons of ripe tomatoes by a Mexican farmer to members of a fraternity at the University of Michigan.
  - e. The hiring of a Canadian trucking company by a U.S. firm to transport horseradish into Canada.
  
5. A surplus in the balance of trade or in the balance on current account (assume they're the same for this question) implies that
  - a. The country's volume of employment is expanding.
  - b. The country is spending on goods and services more than it is earning from producing them.
  - c. The country is lending to foreigners more than foreigners are lending to it.
  - d. The country is accumulating reserves of foreign currency.
  - e. The country's economy is healthy.
  
6. The textbook reports the US current account with a deficit that became smaller from 2005 to 2009, then rose a bit in 2010 and 2011. What has happened to it since then?
  - a. The deficit has turned to a surplus.
  - b. The deficit fell further in 2012 and 2013.
  - c. The deficit has remained unchanged.
  - d. The deficit has grown, but more slowly than before 2005.
  - e. The deficit has grown faster than before 2005.
  
7. What policy does Warren Buffett suggest in order to eliminate the U.S. trade deficit?
  - a. Stop trading with China.
  - b. Devalue the dollar.
  - c. Issue Import Certificates to exporters, to be used by importers.
  - d. Require that countries wishing to export to us use Special Drawing Rights.
  - e. Make outsourcing of jobs illegal.

**Part II: Short Answer**

Answer in the space provided.

1. Define the following terms:
  - a. Current account
  - b. Trade balance
  - c. Official reserve assets
  - d. Odious debt
  
2. Identify the following transactions by whether they belong in the U.S. current account or financial account, positively (contributing to a surplus in that account) or negatively. Put a plus or a minus sign in the appropriate column.

	Current Account	Financial Account
a. A U.S. farmer sells a truckload of artichokes to a Canadian restaurant.		
b. A German professor is paid royalties on a textbook published by a Boston publishing firm.		
c. A student in Thailand deposits dollars in a Los Angeles bank account, planning later to pay tuition at UCLA.		
d. The owner of a pizza chain in Kansas sends \$1000 to relatives in Sicily.		
e. An American company buys a warehouse in Ireland.		
f. AT&T pays dividends to holders of its stock in Brazil.		
g. A Brazilian widow buys stock in AT&T.		
h. A Michigan student, preparing for a semester abroad in France, buys \$1000 worth of French currency from an Ann Arbor bank.
