

## **L16: Final Requirements**

**(but still two meetings next week)**

## Group project work:

For Tuesday, Dec. 4:

**Selected projects for class presentation ...**

**likely 1 adventure, 2 photos; max. 15 minutes each;  
show few design documents and any demo  
(even demo's may be better as screen snapshots);  
assessment ... evaluation, estimate of effort.**

For Monday, Dec. 10 (or sooner):

**all project items are due (see next slide)**

## Group project work:

- 1. Post a final assessment statement:**  
evaluation of design, scope of implementation,  
who did what, etc.
- 2. Post a link to source code and compiled object(s).**
- 3. On your own homework page:**  
report your contribution ( % of work or hours worked).
- 4. Post and/or print a single document of the project report:**  
vision statement, design models, few screen snapshots (if any),  
final assessment statement (but not code).
- 5. Post zip files of the group homework site:**  
Separate html, final document, and code.  
(Be sure links are relative, not absolute.)
- 6. Rejoice to be done. ("A merry heart is a good medicine.")**
