

# Lecture 17 — Supernovae

# How to Study for my exams?

1. Read the book
2. Do the "Review Questions" at the end of the chapters
3. Go over the lecture notes
4. Do the "Discussion Questions" at the end of the chapters
5. Write up a glossary of terms and define them
6. Try the practice exam
7. If you aren't sure of every answer go back to step 1
8. Don't think the practice exam covers everything on this exam
9. Remember four-five wrong is still an "A"

# Close Binary Evolution: Roche Lobes
