HISTORY OF BLACK EDUCATION IN AMERICA

Fall 2010

Collette M. Bloom, Ed.D.

Associate Professor

College of Education Vision

The College of Education at Texas Southern University will become the region's leading source of informed thought regarding matters of urban education as well as the foremost producer of exemplary professionals who are prepared to provide effective service in urban schools, agencies and other entities.

College Of Education Mission

The mission of the College of Education at Texas Southern University is to provide competent career professionals for effective service in urban schools, utilizing research, collaboration, and application in seeking solutions to teaching, learning, social, physical and behavioral issues facing urban populations.

College of Education Conceptual Framework

The following graphic representation incorporates the College of Education's Conceptual Framework into three components. One component focuses on the expectation held by the faculty that its graduates will be caring, committed, competent and culturally responsive urban educators. The second component focuses on practices designed to result in the realization of the faculty's expectations. The final component focuses on outcomes—extents—to which the COE expectations have come to fruition. The faculty uses the acronym ExPO to refer to this three-component construction.
