

CSE 543 - Computer Security

Lecture 6 - Applied Cryptography

September 13, 2007

URL: <http://www.cse.psu.edu/~tjaeger/cse543-f07/>

Project Assignments

- Pretty narrow selection
 - 23 people picked IM security
 - Some projects untouched
- 7 project groups defined (26 students)
- 9 students not assigned
 - Pick again among (by 5pm tonite -- 9/13)
 - Secure Network Computing
 - Password Cracking/Keylogging
 - User-compatible Security
- Students
 - Murthy, Bala, Borcic, Chen, Gopalrathnam, Srikar, Shawaran, Tannous, McLaughlin

Applied Cryptography

- How do we use these (and other) constructs to achieve security goals?
 - What are the goals?
